

05/02/2014-CSAH26 Project Update:

As many of you are already aware the CSAH26 (Main Street & Cherry Avenue) project has begun. The project will be split into two phases. The first phase is planned to go until mid-July and will include the majority of the project on Main Street. The second phase will be the Cherry Avenue portion and will begin after the Main Street portion and is scheduled for completion by mid-September (the county road 187 sanitary portion will take place in late May/early June).

The construction crew is currently working on getting temporary waterlines set up. Starting on Monday Main Street will be closed. On the City's website there is a map of road closures for both phases of the project [CSAH26 Project](#). Construction will typically occur from 7am to 6pm M-F, and depending on progress some Saturdays.

I will continue to provide updates throughout the project. If you have any questions about the project or experience any problems please feel free to contact Bill Dunn from ISG 507-382-8947.
